### **Helpful Websites:**

1. [www.antennaweb.org](http://www.antennaweb.org), [www.tvfool.com](http://www.tvfool.com)

Antenna information: Types & features.

Enter your address and get distance and degree offset to local stations. This is helpful if you have a motorized antenna that can be spun to maximize reception.

2. [www.stationindex.com/tv/markets/boston](http://www.stationindex.com/tv/markets/boston)

Lists all stations and channels in Boston Area in an easy to read format

3. [www.rabbitears.info/market.php](http://www.rabbitears.info/market.php)

Lists all stations and channels in Boston Area in a not as easy to read format, but contains more information such as listing each subchannel and the broadcast quality (HD or standard DTV)

4. [www.fcc.gov/encyclopedia/tv-query-broadcast-station-search](http://www.fcc.gov/encyclopedia/tv-query-broadcast-station-search)

Enter station call sign (WMUR, etc.) Provides very technical information about station – e.g. antenna location (GPS coordinates), broadcast frequency, radiated power
